

# EFFLORESCENCE CLEANER

# TRITON INDUSTRIAL

*Creating a Sustainable Environment*

*Triton Industrial's Efflorescence Cleaner is one of the most powerful cleaning agents of its type on the market today, yet remains the safest on most surfaces, you and the environment.*

*Powered by HCR-Clean, Triton Industrial's line of cleaning products gives you the power and performance of a strong acid while remaining far safer for you, the environment and your property.*

## APPLICATIONS:

Triton Efflorescence Cleaner is applicable for use anywhere you encounter salts leaching from concrete products, such as retaining walls, foundations, basements, driveways, planters, water fountains etc.

Test a discreet area prior to use. Apply product (ready to use) and let stand for 5 minutes, rinse with fresh water. Re-apply for abnormally heavy build-up.

Harness the power of Hydrochloric Acid without the negative effects of harsh mineral acids. Protect your people, the environment and your equipment. Supplied worldwide.

## PACKAGING

Triton Efflorescence Cleaner comes in the following sizes:

950ml spray  
3.8l container

TIEC381  
TIEC481

## PROPERTIES

- Appearance: Clear liquid
- Specific Gravity: 1.05
- Total Salinity: 14%
- Odor: Slight odor
- Freezing Point: 10°C (5°F)
- Boiling Point: 100°C (210°F)
- pH: < 0.5
- Solubility: 100% in water
- Shelf Life: >1 year

## HEALTH, SAFETY & ENVIRONMENT

- Non-corrosive to the skin
- Non-fuming
- Non-volatile, and drinking water quality BTEX levels
- Non-toxic material (oral)
- Low aquatic toxicity
- Biodegradable
- Considered corrosive to eyes, eye protection is required
- Contains no phosphates
